## TELEHEALTH

*We ship pre-labeled kits tied to your production.  
We can ship them to the crew directly, or you can pick them up at  
our office to distribute to crew.*

### TELEHEALTH

The crew scans a simple QR code, uploads their identification, a selfie, and an image of their completed test. We then distribute a test result through our normal portal system.  
The process is very intuitive and simple, and is approved for use by most major studios.
